

Elevate Your Construction Experience with Last Best Wall Systems

Solutions for Effortless Residential Construction.

Welcome to Last Best Wall Systems, your trusted partner in simplifying and enhancing residential construction.

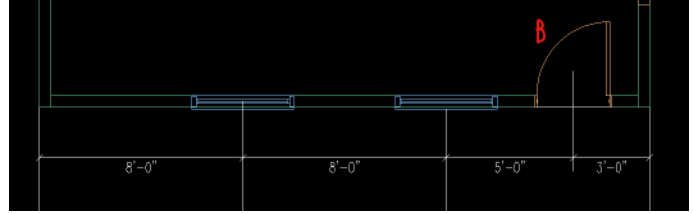

Key Features

- *Efficiency:* Streamline your construction process with our pre-built walls, reducing on-site labor and project timelines.
- *Quality:* Engineered with precision and constructed with top-grade wood, ensuring strength and stability.
- *Customization:* Tailor-made solutions to meet the unique needs of your residential projects.
- **Optimized Prefabrication:** Our prefabricated wall panels can be optimized to reduce the amount of board footage used.
- **Easy Installation:** Easy to install without specialized labor, ensuring shorter installation times.
- **Reduced Waste:** Experience less waste and environmental impact with our efficient construction solutions.
- **Material Customization:** Customize your materials to suit the specific requirements of your project.
- *Time Savings:* Our pre-built walls save you valuable time, allowing for faster project completion.
- *Cost-Efficiency:* Reduce on-site labor costs and minimize material waste, leading to a more economical construction process.
- *Consistent Quality:* Eliminate variations in construction quality with our standardized and reliable wall systems.

- Discover the innovation behind our pre-built wood framed walls.
- Precision engineering and quality materials for a superior construction experience.
- **Advanced Design and Customization:** Our advanced design and made-to-order customization make installation time faster, easier, and more accurate.
- **Consistent Quality for Reduced Errors:** Enjoy consistent quality for reduced errors throughout your construction projects.

Why Choose Last Best Wall Systems?

- Trusted Industry Partner: Count on our experience and expertise in delivering top-notch wood framed walls.
- Commitment to Excellence: We are dedicated to providing the highest quality products and customer satisfaction.
- Environmental Responsibility: Our sustainable practices ensure minimal impact on the environment

Introducing EZ Frame System

Simplify Your Construction with Effortless Precision

Welcome to the future of hassle-free construction with EZ Frame System.

EZ Frame System combines Prefab wall construction with on-site assembly, saving you time and reducing waste. Have your entire house Pre-cut, plates laid out and delivered to site. Labeled and ready to nail together.

Features

- All walls Pre-cut and plates labeled.
- Options for Truss Layout printed on plates.
- Options for Hold Down and strap locations labeled on plates.
- Other customizable options.

Experience the perfect blend of simplicity and precision in every build.

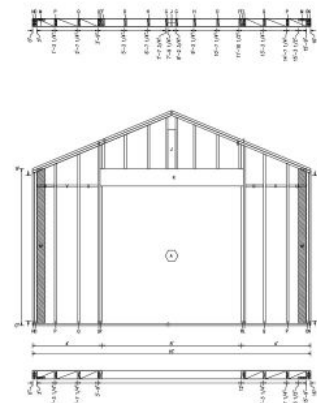

About EZ Frame System

- Discover the innovation behind EZ Frame System.
- Precision-engineered for seamless construction projects.
- **Effortless Construction:** Build with ease, speed, and accuracy.
- **EZ Frame System Integration:** EZ Frame System has a wide variety of options to add to printed layouts.

Additional Features

- **Simplicity:** Streamline your construction process with our user-friendly EZ Frame System.
- **Precision:** Engineered for accuracy, ensuring a perfect fit every time.
- **Efficiency:** Quick assembly and installation for faster project completion.
- **Versatility:** Suitable for a wide range of construction applications.

Member	Qty	Length	Notes	Assembly
